EDUCATION

General Assembly — Javascript Development Course

September 2018 - November 2018

A 10 week online development intensive focusing on Javascript and React development.

Rutgers — Rutgers Coding Bootcamp

2017

An intensive 24-week long boot camp dedicated to designing and building web applications.

Rochester Institute of Technology — 3D Digital Design BFA

2012 - 2016

GPA 3.6 - Learned 3D software packages and technologies related to the development of digital assets to be used in games and movies.

WORK EXPERIENCE

ADP/Ascent, NJ — Quality Assurance Specialist

2016 - 2018

Works as a Quality Assurance Specialist, processing payroll for thousands of businesses in the tri-state area.

PROJECTS

“GetItDone” - Dec-Feb 2018-2019, Personal Project

GetItDone is a weekly planner web application built on Firebase and React. Firebase will record user data, so you can create an account, login anywhere, and add and subtract tasks you must complete each this week. All presented work was completed by me.

Project Link: <https://chord-runner-1.firebaseio.com/>

“The Dispatch” - March 2019, Personal Project

The Dispatch is a news aggregator web application utilizing Javascript, JQuery, and Ajax. All presented work is entirely my own. The front end is complete, however the project is under continued development.
