Matthew Reid is a talented and motivated programmer, with additional skills in web design, writing, video production, and 3D art.

EXPERIENCE

ADP, NJ — *Quality Assurance Specialist (Contractor)*

August 2016 - PRESENT

Works as a Quality Assurance Specialist, processing payroll for thousands of businesses in the tri-state area.

RIT, NY — *Student Post Office*

February 2013 - May 2016

Worked as student worker, processing income packages and delivering them to students. I also trained new employees on necessary skills.

EDUCATION

Rochester Institute of Technology — *3D Digital Design BFA*

August 2012 - May 2016

GPA 3.6 - Learned 3D software packages and technologies related to the development of digital assets to be used in games and movies.

Rutgers, State University of NJ — *Rutgers Coding Bootcamp*

January 2017 - July 2017

An intensive 24-week long boot camp dedicated to designing and building web applications.

PROJECTS

"The Dispatch" - *July 2017, Rutgers Coding Bootcamp*

A news aggregator web application I developed as my final project at RCB. It gathers metadata from news output from sites like the New York Times, ESPN, The Guardian, and the Washington Post and delivers a similar newsfeed functionality as Facebook, but specifically related to news content.
